

“Here is wisdom.”

Discover for yourself what infamous number lurks in the phonetics of a well known name.

In the column below is a list of 16 well known Hebrew names. In each name is phonetic sound that has been highlighted in black bold print. When English speaking people pronounce these names, the sounds pronounced by the highlighted letters are **identical** to those that are made when these names are spoken in Hebrew. In the right hand column is the Hebrew spelling for each of these names. The spellings and pronunciations of these names may be easily verified with a *Strong's Concordance*. (Reference numbers are provided.) Highlighted in black print is the Hebrew letter that is responsible for the corresponding phonetic sound in its English version. (Note: Hebrew is read right to left.) When Hebrew speaking people see these letters in these names, they pronounce the identical sound as highlighted in the English version. Now, starting at the top of the English column and reading vertically-down, pronounce the highlighted sounds **just as they are pronounced in their respective name**. Is not the name you just pronounced phonetically flawless? **Hebrew speaking people render the identical flawless pronunciation of this name doing the same with the Hebrew column!** Now, carefully locate the Hebrew letters that are highlighted in the second column on the table provided below on page 2. (Letter numbers are provided to assist in avoiding confusion.) Find the numerical **value** of each of these Hebrew letters in the far right column of the table, and add these numbers together. Now seriously ask yourself if this could really be just a coincidence.

Note: Names of world leaders like Obama are pronounced the same in virtually every language no matter how a language's written version may appear. Therefore **the technical spelling of a name is irrelevant!** The number of a name is found in its **sound**. **Each and every phonetic sound heard when a name is spoken has a specific value in Hebrew.** The Hebrew letter responsible for each sound and its value can be easily determined as is consistently demonstrated in the chart on the right.

When a name is spoken, heaven hears all things Hebrew concerning it ...the numeric sum of its phonetic components as well as its meaning!

Incidentally, the Shemitic *meaning* of this name happens to be: **“Blessed is the beautiful morning light on high”**. Consider this in light of Isaiah 14:12 where Satan's title is; **“Lucifer (Bright/Shining-Star), son of the morning”**.

Warning *Moses* “Mosheh”

Let no man think he is able to deliver the world from the Antichrist. Man has yearned for the rise of this leader/savior for thousands of years, and what God has said He will permit for a time *will* be permitted. The fools who made **The Beast** their prince have been granted their day. **All** attempts to end their day prematurely will fail and cause severe backlash against those who oppose them. **The Beast** will be removed from power only by Yeshua upon his return and the commencement of **his** day. **This piece was written for the sole purpose of calling believers to watch, pray, and prepare.** It was written by a former Evangelical Christian who has been an Observant Messianic Jew since the mid 90s, and a Nazirite to YHVH since early 2007.

Saul Alinsky dedicates his book, “Rules for Radicals” to Lucifer!

“Lest we forget at least an over-the-shoulder acknowledgment to the very **first radical**: from all our legends, mythology, and history (and who is to know where mythology leaves off and history begins — or which is which), the first radical known to man who rebelled against the establishment and did it so effectively that he at least won his own kingdom — **Lucifer**“

—Saul Alinsky

“Thirteen years after Alinsky died, some of his former students hired Barack Obama to a \$13,000 a year job as a community organizer in South Chicago. In a few years **he became very proficient in the Alinsky Method of community organizing and became an instructor and teacher of the Alinsky Method to other community organizers.**”

—Wikipedia

With these two facts in mind, consider again that the very name *Barack Hussein Obama* means, “**Blessed is the beautiful morning light on high.**” “Light-on-high” is undoubtedly a euphemism for “**bright star**”. In Latin, *Lucifer* literally means “bright star”. A *bright star* can certainly be described as a “light-on-high”.

In Isaiah 14:12, Lucifer’s title “bright star” goes on to include... “**son of the morning.**” The name *Obama* literally means “**morning light on high**”! Is not “**Morning Light on High**” another way to describe “**Bright Star ...Son of the Morning**”?

We also know that Lucifer fell because of his pride in his **beauty!** Ezekiel 28:17

Now read it again and try to comprehend all of what is being said in the name *Barack Hussein Obama*.

“Blessed is the beautiful morning light on high.”

Obama’s name itself is a subtle blasphemous praise and dedication to Lucifer!

”Then I stood on the sand of the sea. And I saw a beast rising up out of the sea,” “...and on his heads **a blasphemous name.**”

—Revelation 13:1

MARK THESE WORDS:

Obama will NOT be leaving power on January 20th 2017

As the world continues its descent into World War III, financial collapse, civil unrest and more, and it becomes evident that Obama will be taking “temporary” dictatorial power until such time as “fair” elections can be restored, know that freedom to speak the truth will come to a swift end and calling Obama *the antichrist* will become a prosecutable “hate crime”. It would therefore be wise to keep this article and others like it on file for future reference. You can be sure it won’t be available online two years from now.
